

Quickmail: ensuring innovation and free choice on the letters and parcels market

Quickmail AG is the only private service provider in Switzerland delivering mailings, catalogues and customer magazines. Customer dialogue is our passion: we deliver messages to letterboxes, and thus help attract and retain customers. In addition, since June 2019 Quickpac has also been transporting parcels of orders placed online or in catalogues to their recipients.

Benefits for senders of mailings, catalogues and magazines

- Up to 15% saving on previous postage costs
- Delivery of addressed, partially addressed and unaddressed consignments in a set time window (Thursday and Friday)
- Distribution to all of Switzerland by approximately 3,200 deliverers
- Free information about undeliverable shipments and full order management via a user-friendly extranet
- No additional costs for shipments that cannot be handled by machine ('special shipments')
- Climate-neutral transport for all shipments with CO2 offsetting

Consignments delivered by Quickmail in millions

Quickmail was founded in August 2009 and delivers addressed letters, mailings, catalogues and magazines weighing over 50 g. Since 2022 Quickmail also delivers unaddressed mailings.

Quickmail reaches around 90 % of all households in urban and rural Switzerland.

Quickmail currently has 121 full-time employees and 3,200 part-time employees (deliverers). This represents a full-time equivalent of 456 people.

Quickmail's customers include companies in the mail order, retail, publishing, fundraising, automotive, education and tourism sectors.

Since June 2019, **Quickpac** has been offering its customers which include mail-order companies and online shops the fast, silent and environmental friendly delivery of parcels in Switzerland at affordable prices. Quickpac is the first parcel service provider in Europe to use electric vehicles for the delivery of parcels throughout the country.
